

## UNITED STATES ENVIRONMENTAL PROTECTION AGENCY REGION IX 75 Hawthorne Street

San Francisco, CA 94105

July 2, 2008

RE: Cooper Drum Company Superfund Site, 9316 South Atlantic Avenue, South Gate, California: Special Notice Letter and Good Faith Offer

Dear Sir and Madam:

By letter dated May 23, 2008, you were sent special notice of your potential liability for costs incurred in connection with contamination at the Cooper Drum Company Superfund Site (the "Site"). The May 23 special notice letter was sent to 68 recipients. All recipients were directed to submit a "good faith offer" to the United States to conduct or finance the remedial action at the Site within the sixty day negotiation moratorium which began with your receipt of the special notice letter (see letter dated May 23, 2008, from Kathleen Salyer). All recipients were also encouraged to contact EPA by June 15, 2008, to indicate their willingness to participate in future negotiations concerning the Site.

EPA has received responses on behalf of 50 of the special notice recipients. The responses generally indicate a willingness to work with EPA but request more information on liability allocations in order to structure a good faith offer.

As you are aware, EPA has worked with you over the last year to provide you with all non-privileged information in EPA's possession or control relevant to the Site and to your responsibility for cleanup. EPA established a website, to which you have access, and posted all non-privileged documents, including the customer specification records and the truck driver pick-up slips in EPA's possession, and the responses of all parties to EPA's information requests. EPA also proposed to conduct pre-litigation depositions of the Cooper Drum ex-employee witnesses who have relevant information, pursuant to Rule 27 of the Federal Rules of Civil Procedure. The Court initially granted EPA's petition to take these depositions, and EPA hosted a meeting in Downey, California in November 2007, to which you were invited, to discuss, among other things, procedures for the depositions.

After protracted discussions between EPA, the Department of Justice, and the special notice recipients, a group of the special notice recipients belatedly petitioned the Court to vacate its order allowing the depositions, and the Court did so. At that point, EPA concluded that the most efficient way to move the Site cleanup process forward was the issuance of special notice.

To facilitate the formation of a working group, and the submission of a good faith offer within the 60 day moratorium period, EPA has enclosed with this letter a spreadsheet listing the 66 generator parties and indicating the range of drums per month sent by each party to the Site. These ranges were calculated based on EPA's discussions with witnesses involved in Site operations, truck driver pick-up slips, and responses to information requests to the parties. Assuming receipt of a good faith offer within the 60 day moratorium period, EPA and the Department of Justice are willing to seek sworn declarations from the witnesses whose testimony supports the information on the enclosed spreadsheet.

If EPA receives a good faith offer within the initial 60 day moratorium, EPA will extend the moratorium period for an additional 60 days to negotiate a Consent Decree with you for the remedial action and the payment of past costs at the Site incurred by the United States. EPA considers these moratorium dates to be firm. As set out in the special notice letter, if your good faith offer is not received as required EPA will determine that you are not willing to cooperate voluntarily and will then consider issuing you a Unilateral Administrative Order to perform the work described in the Record of Decision for the Site.

Please send your written proposal to perform the remedial action to:

Eric Yunker (SFD 7-3) U.S. Environmental Protection Agency 75 Hawthorne Street San Francisco, CA 94105 (415) 972-3159

Please direct any legal questions to:

Jim Collins (ORC-3) U.S. Environmental Protection Agency 75 Hawthorne Street San Francisco, CA 94105 (415) 972-3894

Sincerely,

Kathleen Salyer, Chief Site Cleanup Branch, Superfund Division

Kalleer Salyer

Enclosure:

- Notes:

  Ranges indicate number of drums transported per month from the PRP facility to theCooper Drum facility.
- Specific time periods of drum contribution vary among the PRPs.
   Yellow highlighting indicates the drum count facility breakdown was based on an estimate from all facilities.
   66 PRPs Representing 72 Generators.
